Name, Prename – Sales and Business Development
Bremen, Date

AIRBUS

ABOUT US

WELCOME to Airbus DS Airborne Solutions GmbH (ADAS)

Airbus Amber

A pioneer in aviation industry

Location HQ
in Bremen, Germany
Deployment countries

Business Areas
Uncrewed Aerial Systems
Cargo Loading Systems

Employees
300 FTE

Revenues
171 M€ (2025)

AIRBUS

Located within the Airport infrastructure

Short distances to relevant interfaces :

- Airbus Plant Bremen
- Airport Bremen
- Military Logistic Center opposite of ADAS
- Bremen Harbour & Motorway close-by

AIRBUS

ADAS Facilities & Infrastructure

SITE Facts & Figures:

All buildings are acc. to energy efficiency class C | DGNB Gold Cert.

Spaces

- 6500 m² for Offices / Social areas / Canteen / Laboratories
- 1400 m² Production areas
- 2500 m² Logistics area incl. offices (Warehouse)

Security

- Individual access control to entire facility and dedicated areas
- Governmental Defence Security Officer on site
- Security Classification
- Experience in handling of classified documents

Sustainability & Environment (2025)

- 7.250 kg Commercial waste (mixed)
- 840 kg Paper waste
- 104 kg Electronic waste
- 193 m^3 foil waste
- 825.326 kWh electricity consumption
- 150.340 kWh gas consumption
- 824 m^3 sewage

Spaces in Detail

- Development & Engineering
- Production & Maintenance
- Engine Test Stand
- Warehouse & NTD Lab
- Test Laboratories

AIRBUS

Overview of ADAS Business Areas

Uncrewed Aerial Systems

Tactical UAS

Development, Operation, Maintenance & Overhaul

MALE UAS

Lease-Operate-Maintain

Innovative UAS solutions

Eurodrone GCS components & GCS Solutions

Cargo Loading Systems

Passenger aircraft

A330, A340, A380

Freighter aircraft

A300, B747-400 BDSF, A330

Military transport aircraft

A400M – Load Master Controls

AIRBUS

UAS Expertise built from years of delivering innovation

1980 - 1994
Developed UAS Tucan as test basis for UAS Brevel

2000 - 2004
Developed UAS KZO in Germany

2004 - 2009
Delivered UAS KZO to German Forces

2010 - 2014
Support ISAF mission in AFG with UAS Heron 1 incl. LOM-concept

2012 - ongoing
UAS KZO training / operations with German Forces in collaboration with NATO

2015 - 2021
Support RS mission in AFG with UAS Heron 1 incl. LOM-concept

2016 - 2023
Support MINUSMA mission in MLI with UAS Heron 1

2018
Trial for FRONTEX for maritime surveillance with UAS Heron 1

2018 - ongoing
Provide GAF next level of MALE RPAS (GHTP)

2021 - ongoing
Support FRONTEX mission in Malta with UAS Heron 1

2022
Deployment of 2nd FRONTEX base in Tymbaki, Greece

2024 - ongoing
Support GAF demonstration in Germany (GHTP)

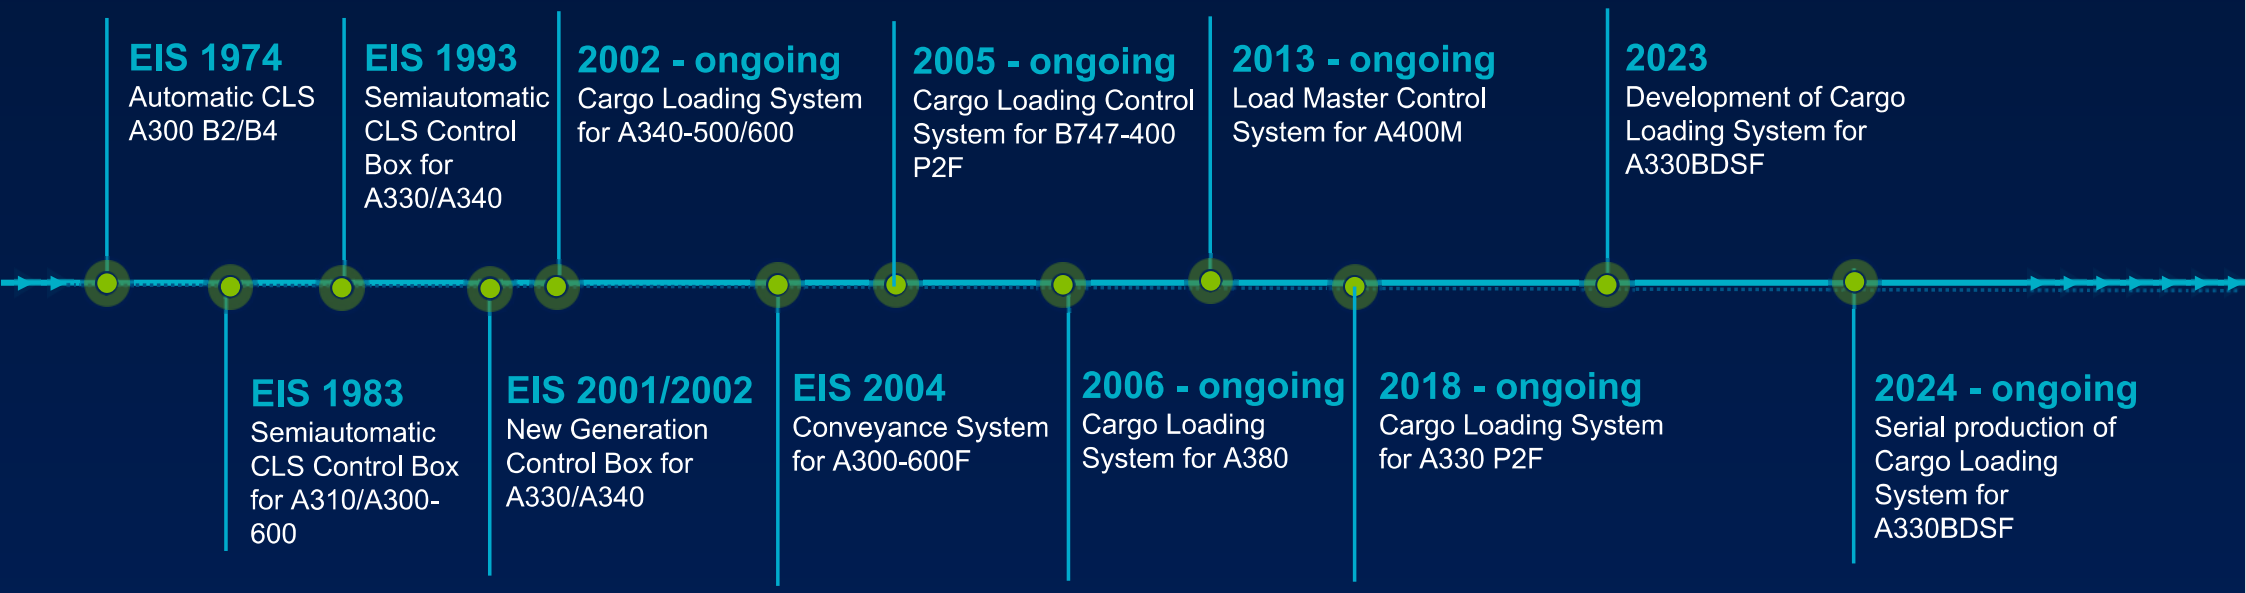

An expert-partner by your side

A legacy of delivering Engineering Solutions and UAS Services for over 40 years.

AIRBUS

UAS Operations & Services

UAS Operational Services – Service operations

Consulting

- Requirement analysis and system design
- Supporting bid- and contract documents
- Supplier management

Training

- Maintenance personnel
- Payload operator
- Air vehicle operator (UAV Pilot)

Support

- System qualification and certification
- Initial and continuing airworthiness
- System implementation
- Integrated logistical support (documentation, spares/repairs, maintenance, …)

Operations

- Worldwide UAS operation and support
- Co-operative system support centre
- Lease-Operate-Maintain service
- Service for customer owned systems

AIRBUS

UAS Mission Services

- UAS Operation (e.g. in graphic below)
- UAS Training (UAV Operator, Payload Operator, Maintenance staff)
- Line and Base Maintenance (MRO)
- Provision of **C**ontinuing **A**irworthiness **M**anagement **O**rganization (CAMO)
- Full Integrated Logistics Support
- Customer support for military customers

- More than 90,000 FH experience in several Deployments …
- … with a reliability of >98%, during 24/7 Operation in Deployments
- Proven field experience >15 Y

Mission proven services

AIRBUS

German Heron TP – Welcome to the mission family!

A Multi Mission MALE UAS with long-range stand-off capabilities

- EO/IR
- SAR (conventional and maritime surveillance)
- Special Payloads
- SIGINT
- Wide Area Persistant Scanning
- Airborne Early Warning
- … and more

In operation at Tel Nov AFB for GAF training and at Jagel GAF AFB

Member of the NATO TIGER MEET 2024 – first MALE UAS operated in the NTM Exercise (Jagel AFB)

Worldwide the first MALE UAS in this class fully type certified for worldwide operations!

AIRBUS

ADAS Experience in UAS Ground Control Stations

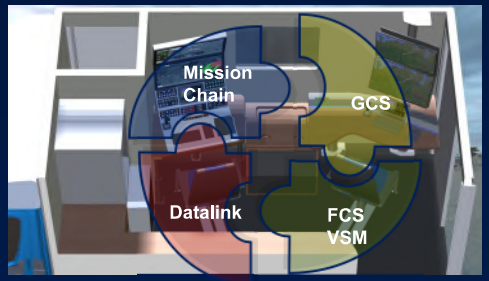

Ground Control Station Expertise – Past

KZO development launched in early 1990's

- EIS with fully automated flight guidance in 2006
- First military operational use in 2009 (> 100 successful missions)
- Concurrent and upgrade development of GCS acc. to customer needs
- NATO VJTF operational use of KZO until 2026+

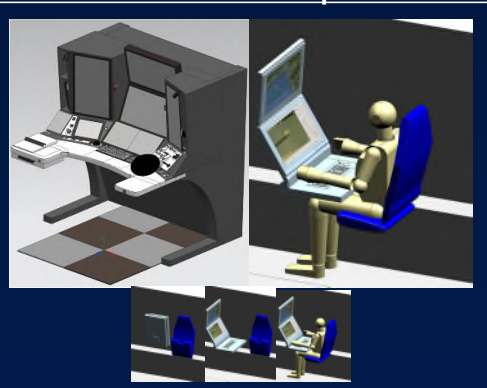

Ground Control Station Expertise – Present

Subsequent development of ADAS GCS

- Competencies as part of Lightmale project
- CROS as modular system architecture
- Highly flexible GCS concept
- Proven Blue Chain by lab & flight test with fully functional system chain

Ground Control Station Expertise – Future

Subsequent development of ADAS GCS

- Competencies along customer needs
- **EURODRONE GCS workshare by ADAS**
- Data driven scalability of customer interface
- Successfully demonstrated in A400M environment

AIRBUS

ADAS UAS Operations & Services: The Competitive Solution

ADAS Assets for Engineering & Tool Chain

EURODRONE WP on GCS at ADAS

Main Engineering assets available to drive Concept and Design Phase as well to ensure Cont'd Airworthiness

We deliver safe, effective and trouble-free UAS operations and the customer is focused on turning mission success into action.
